# New York Stock Market

point of interest in to-day's stock market was the acute weakness of a market was the acute weakness of a number of low-priced railroad stocks and bonds. St. Louis and San Francisco securities stood out conspicuously with declines of 5 points for the common and second perferred stock. 12 points for the first preferred and nearly 3 points for the 5 per cent bonds. The first preferred at 35 was the lowest since the low record of 34 1-4, made in 1896, and the second preferred, touching 12, was at second preferred, touching 12, was at the bottom figure since 1897. In-quiries elicited no official explanation of the weakness of these securities. Rock Island shares also were heavy.

In all, eleven railroad stocks touched the low prices for the movement.

The market in general held up well in the face of these declines. Even the stock which had previously been conspicuously weak moved up with the leaders, and recovered part of their early losses before the close.

The general situation to-day presented no new features. Apparently traders were awaiting the outcome of to-morrow's offerings of \$45,000,000 New York City 4 1-2 per cent bonds, and Chinese bond issue abroad. Bids for the city bends from out-of-town banks, were bends from out-of-town banks, were bends received to day, we banks were being received to-day by their representatives here. The response to this offering is awaited with unusual interest by bankers. It is hoped that if this issue and the Chinese loan are attended with the success which is predicted for both of them, the result may be to stimulate

Bonds were irregular, weakness of speculative issues offsetting improve-ment elsewhere. Total sales, par value, \$1.618,000. United States bonds were unchanged

New Orleans, May 19.—Cotton had a very teady tone on the opening session of the seek. Bulls were not aggressive, but a modifical good inquiry for contracts was in widence all day long, which the ring found liftcult to supply. The gossip of the market gave and puzzling. In some quarters was claimed that spinning interests were largest purchasers, and that the market as fast getting into a condition where the hert end of contracts would be held by neculators and the long end by consumers, in the opening the tone was steady with these showing a decline of 376 points, ables were not high enough, and the cather news from the cotton belt was call-I tworable on the whole. The market very radually worked higher, standing late in ed day at a net rise of 19612 points. The cose was firm, \$611 points ever Saturday's mal figures. Injury.

[Special to The Times-Dispatch.]
Winchester, Va., May 19.—A large automobile, occupied by J. W. Lewis and two sisters, of Bluemont, Loudoun County, and two brothers, named Hatcher, of Plains, Va., suddenly left the Winchester-Bluemont Turnpike last night, two miles east of Berryville, where the party had spent the day, and none escaped without injury. One of the women was terribly gashed in the face, had several teeth knocked out and sustained serious bruises.

Hadian and Union Pacific.

The foreign exchange market was fairly strong, ruling a trifle over Saturday's prices.

Trade reports continue to show remarkable figures, Exports of merchandise for April show an increase of \$2,560,360, while imports fell \$18,400,400 from a year ago. This is the largest April business on record.

Notwithstanding the good bank statement of Saturday, money rates were firm.

Leading Stocks Firm, and Several Show Gain in Day's

Dealings. BY BROADAN WALL,

New York May 19 .- To-day's stock narket gave a good exhibition of nderlying strength. St. Paul and Reading gained a point, and Union Paific continued its showing of firmness hat is considered in many quarters adicative of a higher range of value Indicative of a higher range of value within the coming week. It is now believed that there will be no announcement on the Union-Southern Pacific segregation plan until Wednesday. Confidence is expressed that a happy solution has been reached and the plan of the detail will be pleasing to both

Lehigh Valley was strong, and New York Central touched par for the first time in many days. Further details in the plan for refinancing this company have come to light in the application to the Public Service Commission for authority to issue a \$100,000,000 mortgage to cover properties recently acquired. This announcement, however, had an unfavorable effect on the New acquired. This announcement, however, had an unfavorable effect on the New York Central-Lake Shore 31-2s, which dropped to 81 on rather heavy trading. Canadian Pacific, after touching 235-1-2, closed at 237-5-8 on the execution of buying orders from Berlin and London. Brooklyn Rapid Transit continues to improve, and Amalgamated was firm, with a fractional rise.

The early trading was enlivened by a precipitous drop in the St. Louis and San Francisco issues. The common fell to 51-2 and the first preferred to 35, a loss of twelve points. The most ac-

not dull. Yarns are easter. Cutters are booking fall orders on dress goods.

Rock Island issues were weak the common selling at 15:14 and the pre-ferred at 27:1-2 while the bonds were also pressed for sale. These two prop-erties are controlled by different in-terests but the heavy increase in taxes and operating expenses, caused by adverse legislation in the Southwest, is no doubt partly responsible for the present heavy increase in charges. In the case of Rock Island the com-

mon has long been considered without intrinsic value, and the earnings make a wretched showing considering, the funds provided by recent bond sales. Steel made a gain on the day and closed firm at 60. The evidence of C. M. Schwab reflected the constructive policy of the corporation, and although the trade reports that came to hand pointed to a further slackening of business and a falling of in new

orders, the public are not disposed to part with their shares, and the shorts are worrying.
